

Map of Holland after Jacob van Deventer

GUICCIARDINI, Ludovico.
Hollandiae Cattorum Regionis Typus.

Antwerp, c. 1609. 235 x 310mm.

£300

A map of Holland reduced from Jacob van Deventer's nine-sheet survey, also used by Ortelius. This example has been pasted over a misprinted map. It was cheaper to print another map than the letterpress.
