

An early prospect of Cordoba

BRAUN, Georg & HOGENBERG, Frans.  
 Corduba.

Cologne, 1617, French text edition. Early colour. 340 x 505mm.

£900

A scarce prospect of Cordoba from across the Guadalquivir, with the Torre de Calahorra, the Roman bridge and the Mosque-Cathedral. This view comes from the sixth and last volume of the *Civitates Orbis Terrarum*, issued 45 years after volume one, so relatively few were printed.
