

17th century miniature prospect of Mecca

MALLET, Alain Manesson.  
 La Mecque.

Paris, 1683. Coloured. 140 x 105mm, set in text.

£190

Miniature view of Mecca, with a caravan snaking into the city. This copper engraving was published in the 'Description de l'Univers', a five-volume work by Mallet (1630-1706), a military engineer, cartographer and mathematician in the service of the French King, Louis XIV.
